The principal accounting policies used in the preparation of these unaudited condensed results are consistent with those used in the Group’s annual consolidated financial statements for the year ended 31 December 2016 except for the adoption of certain new and revised HKFRSs issued by the HKICPA that are relevant to its operation and effective for its accounting year beginning on 1 January 2017. The HKICPA has issued a number of new and revised HKFRSs that are first effective for annual periods beginning on or after 1 January 2017. The Group has not early applied new and revised HKFRSs that have been issued but are not yet effective for the financial year beginning 1 January 2017. The directors anticipate that the new and revised HKFRSs will be adopted in the Group’s consolidated financial statements when they become effective. The Group is in the process of assessing, where applicable, the potential effect of all new and revised HKFRSs that will be effective in future periods but is not yet in a position to state whether these new and revised HKFRSs would have a material impact on its results of operations and financial position.

## **REVIEW OF OPERATION**

During the period under review, the Group continues to actively grow its business in the area of intellectual property rights and significant improvements in profitability are beginning to materialize. At the same time, the Group also continues to explore opportunities for investments in and development of the electronic car-parking segment, striving for increase in revenue. The Group engages principally in the businesses of: (i) Car parking systems: activities relating to sales and marketing of smart car-parking facilities and software; provision of after-sale and maintenance service; and trading of electric vehicle charging facilities; and (ii) Intellectual property services: authorisation and trading of patents and provision of IP consultancy service. In recent years, the emergence of dominant electronic third-party payment gateways in China has a significant adverse impact on the Group's operating environment in the traditional car-parking management software business, causing a substantial decline in the demand for its traditional car-parking management software. However, this impact also greatly accelerated the speed of its diversification into the IP businesses.

The Group has diversified into IP business from car-parking management software development business due to issues involving copyrights and protecting IP encountered in running of its car parking software business. The Group has gradually expanded to the integrated IP services business from the IP business relating to its original electronic car-parking sector by integrating resources and attracting professionals in the IP industry to join a subsidiary of the Group, Shenzhen Zhitong Tianxia Technical Services Company Limited (深圳市智通天下科技服務有限公司) (“Shenzhen Zhitong Tianxia”), with the aim to develop it into a professional “integrated operator and service provider leveraging on IP portal”. Furthermore, in recent years, the City of Shenzhen has transformed itself into a high-tech company hub of China or known as the Silicon Valley of China. As a result, many tech-companies and IP professionals have flocked into Shenzhen. Therefore, it is natural and advantageous for Shenzhen Zhitong Tianxia to tap into these tech-IP needs and human resources in Shenzhen.

During the period under review, the Group has incorporated an investment holding subsidiary in China, Shenzhen Qianhai Zhitong Holdings Limited (深圳前海智通控股有限公司) (“Shenzhen Qianhai Zhitong”) which is a Wholly Owned Foreign Enterprise “WFOE”. Through an internal re-organization, 100% ownership of another subsidiary, Shenzhen Zhitong Tianxia, which is dedicated to the IP business development, has been transferred from the Group’s another wholly owned subsidiary, Zhengzhou Jian-O’ Yuan ITS Systems Co. Ltd. (“Zhengzhou Jian-O’ Yuan”), to Shenzhen Qianhai Zhitong. By converging the top domestic professionals and experts from the IP sector, Shenzhen Zhitong Tianxia processes extensive practical experiences in the IP operation, domestic and foreign patents, trademark investment and financing as well as valuation services, licensing and trading of patents, etc. Shenzhen Zhitong Tianxia currently engages in various businesses such as standardised construction of corporate IP management, full entrustment of IP, IP financial service, risk management service and value increment, and has successfully secured many IP consulting service contracts. Meanwhile, Shenzhen Zhitong Tianxia achieved business breakthroughs in licensing and trading of patents etc., and entered into various business contracts. IP business has become a significant growth point of the Group’s business. Shenzhen Zhitong Tianxia gradually expand to the IP trading and IP pledge financing business and jointly build sound IP operation and service system by establishing cooperation with well-known domestic and foreign and domestic IP agencies, assessment agencies, legal service agencies, research institutes as well as major universities.

During the period under review, the Group has proactively explored the investment and development opportunities in the smart car-parking segment. Shenzhen Zhitong Tianxia, entered into a strategic investment in Shenzhen MallParking Information Technology Co., Ltd (“Shenzhen MallParking”) in March 2017. In addition to the investment return from its higher corporate valuation, the Group developed the markets by forming a strategic business cooperation with Shenzhen MallParking. Shenzhen MallParking has committed to the Group to provide hardware facilities, equipment as well as software technical supports through software technology transfer, technical and training upgrades, which brings business development opportunities to the Group’s subsidiaries in Zhengzhou and Wuhan.

Wuhan Zhanchi is a technology service company principally engaged in the research and development, production and sale of electronic charging facilities and management system for charging network and providing customized solutions for companies whose business is related to new energy vehicles. Upon entering into a strategic cooperation agreement with Shenzhen MallParking, Wuhan Zhanchi has been actively seeking for a breakthrough by working closely with the Group's strategic adjustment in respect of positioning Wuhan as the key city under the cooperation with Shenzhen MallParking.

Zhengzhou Jian-O' Yuan, has accumulated solid operating experience, copyright-related IP business and customer base for its electronic car-parking business. It has been proactively exploring new ways business for development. Based on its corporate advantages as well as positioning Beijing and Zhengzhou as the key breakthrough under the cooperation with Shenzhen MallParking, Zhengzhou Jian-O' Yuan has provided the intelligent parking system solution to various enterprises which engage in the operation of car parks, and received positive feedback from target customers. It is expected that the Beijing will lead the way with the breakthrough.

Looking forward, the Group will continue to expand its existing businesses and enhance operational and management efficiencies. The Group will continue to leverage on Shenzhen Zhitong Tianxia growth momentum and will commit more of its resources to develop new businesses and augment the Group's revenue. The Group will also seize every opportunity to promote the Group's corporate profile and to increase its financial flexibility through access to the capital markets in Hong Kong.
